- none, all were useful
- I find everything useful
- nothing so far
- n/a
- cant think of any
- announcements
- password creation

Suggestions & Improvements

What additional features would you like the system to have?

30 responses

- none
- None
- n/a
- nothing
- tracking doctor recommendations
- direct comms with clinic
- nothing, i already like the system
- proper app
- appointments
- N/A
- Appointments
- better referrals
- appointments
- cant think of any
- apointments.
- None as of the moment
- less restrictions in creating the account password
- nothing i like all the features as is
- scheduling
- none so far

How could we improve the interface for better student experience?

30 responses

none

n/a

separate apps

direct comma with clinic

could not tell as im already satisfied with it as a student

proper app

appointments

Night Mode

more details and guides

It's already good.

connecting with other clinics

its already good

None

more access

scheduling

marginal improvements to the UX

the interface is good already

add dark mode

nothing, i like how it looks

none so far

better password creation

include a space for the student to provide his/her attending physician in the emergency contacts

love the interface already

i like the interface already its so user friendly

see clinic schedules

professional tone

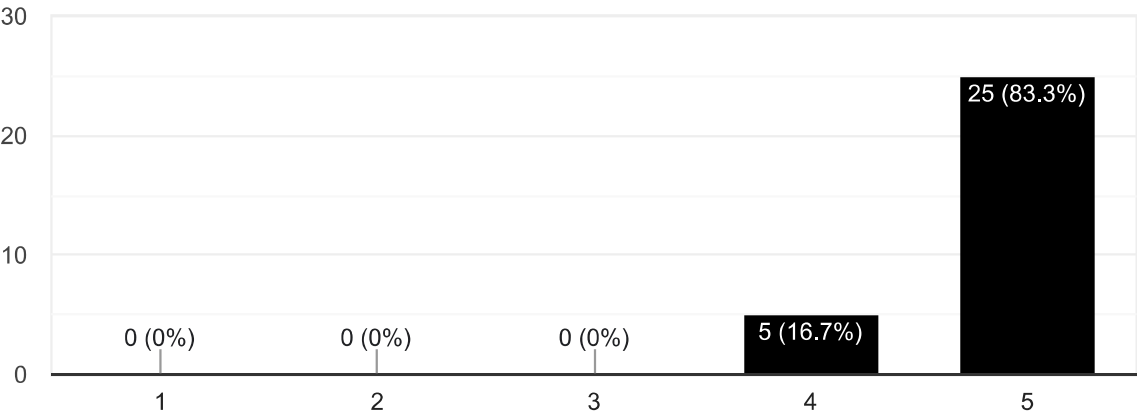

continue developing

Overall, I am satisfied with my experience using the system.
